

Appendix: Survey

Tripartite Mission Outcomes from Practicing CON Faculty Jan to Jun 2023

This survey is for all CON faculty. The purpose is to collect data on tripartite mission outcomes achieved through practice, regardless of if the practice is through the CON or is independent practice. This survey will include outcomes data related to service, teaching, and scholarship/research from January through June 2023. It may be helpful to have your CV handy when completing the survey so you can cut and paste pertinent information. This is estimated to take 10 minutes.

The CON defines practice as an arrangement for provision of professional nursing services to individuals, families, populations, or systems wherein the faculty member is ultimately responsible for outcomes and demonstrates a commitment to scholarly activity. Practice encompasses multiple roles and may include, but is not limited to, direct and indirect provision of nursing/clinical services, research, education, consultation, administration, and other collaborative agreements.

1. Did you engage in practice, whether through the CON or independently from January to June 2023? As states above, this includes but is not limited to direct patient care, indirect nursing/clinical services, consultation, and other collaborative agreements.
